SVERO

SVFRO

Beam trolley 500 kg, 2-wheel, for beam with sharp curve

Art nr.24123A

SVERO's 500 kg two-wheeled beam trolley fits when there are sharp curves on the beam, down to a 300 mm inner radius. The low-built 3-part construction is easy to assemble. A Svero beam trolley for, for example, hanging heavier products on a paint-line.

Description

- two wheels means a very small minimum turning radius
- fits most chain hoists, both manual and electrical
- fits IPE, HEA, HEB and INP beams
- powder-coated steel sides
- adjustable left and right threaded suspension bolt
- test loaded with 1.5 x WLL
- working temperature -10° C up to +50° C test and CE certificates and manual included
- traceable with unique SVERO serial number
