

SVERO

Beam Trolley 1000 kg, 50-160 mm, stainless

Art nr.20143AS

Our most popular SVERO beam trolley in stainless steel. Very all-round. The low-built 3-part construction is easy to assemble. 1000 kg can handle many lifts in the workshop, but also permanent suspension of pipes for, for example, district heating and drain pipes. Smart mounting.

Description

- fits IPE, HEA, HEB and INP beams
- adjustable left and right threaded suspension bolt
- test loaded with 1.5 x WLL
- stainless steel AISI 304 EN 1.4301
- test and CE certificates and manual included
- traceable with unique SVERO serial number
