

TERRIER

Lifting clamp, TSU, 0-13mm 750kg

Art nr.855000

This lifting clamp with a maximum capacity of 750 kg is designed to lift and transport sheets in a vertical position. It is equipped with a safety mechanism that prevents accidental release of the load. The lifting clamp can be locked in both the open and closed position, to ensure stability during the lifting process.

Description

- For lifting and transporting of steel plates and structures from all positions (horizontal, vertical and sidelong).
- Articulated lifting shackle.
- The TSU lifting clamps are equipped with a safety mechanism, ensuring the clamp does not slip when lifting force is applied and when load is being lowered.
- The clamp is locked in closed as well as in open position.
- Lifting capacity and jaw opening are clearly engraved in the body.
